## SPECIFICATION FEATURES

### Material

Painted or natural solid aluminum. White matte acrylic diffuser.

### Finish

Standard: Unlacquered Natural Aluminum (NA)[Sustainable Design].

Premium: Laquered Satin Aluminum (SAL), Matte White (MW), Matte Black (MB) or Custom Color (CC).

### Optics

Refer to [www.shaperlighting.com](http://www.shaperlighting.com) for complete photometrics.

### Ballast

Integral electronic HPF, multi-volt 120/277V (347V Canada), thermally protected with end-of-

life circuitry to accommodate the specified lamp wattage.

### Lamp/Socket

Two (2) 13W (G24q-1) or 26W (G24q-3) 4-pin quad CFL lamps. Socket injection molded plastic. Lamps furnished by others.

### Installation

Supplied with a universal circular strap for a standard 4" J-box or plaster ring.

### Options

Damp location (DL): All Painted Finishes, Lacquered Satin Nickel (SNL) and Lacquered Satin Chrome (SCL) only. Remote Emergency Battery (REM) - Supplied by others. MRI Applications (INC only) - Contact Factory. Energy Star Rating - Consult Factory.

### Labels

U.L. and C.U.L. approved for indoor and damp location. See options for damp location finishing requirements.

### Modifications

Shaper's skilled craftspeople with their depth of experience offer the designer the flexibility to modify standard surface luminaires for project specific solutions. Contact the factory regarding scale options, unique finishes, mounting, additional materials/colors, or decorative detailing.

### Notes:

<sup>1</sup> Supplied by others.

<sup>2</sup> Interior applications only.

Shaper's exclusive Starter Collection fixtures are featured throughout the Shaper product line. The concept of offering highly styled, affordable fixtures was introduced over fourteen years ago and has become one of our fastest growing lines. The design premise, basic construction, clean lines and unadorned shapes are highly desirable in modern architectural environments.

Shaper has a long-standing history of offering environmentally-friendly fixtures. The copper and bronze alloys used in our exterior luminaires feature up to 98% recycled content, contribute less undesirable air emissions compared to painted aluminum and are easy to recycle.

Lighting fixtures for MRI facilities are specialized and unique, requiring non-ferrous construction. Fluorescent fixtures cannot be used due to the ferrous parts in ballasts and lampholders. Modified incandescent fixtures meet the requirements.

Shaper now offers a wide variety of fixtures that can be provided with an Energy Star Rating.
